PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 5+ years of experience architecting and delivering scalable, high-performance web applications across eCommerce, SaaS, booking systems, and enterprise platforms. Deep expertise in Laravel, PHP, React.js, Next.js, and PrestaShop with a proven track record in RESTful API development, MySQL schema optimization, and third-party integrations including Stripe and Google APIs. Successfully delivered 50+ projects for clients across Saudi Arabia and international markets. Trilingual communicator (English, Arabic, Urdu) with strong Agile delivery experience. Open to remote opportunities and relocation.

WORK EXPERIENCE

Full Stack Developer

August 2025 – Present

76 Rental Cars Gharnatia — Riyadh, Saudi Arabia

- Architecting and developing Scaouto.com, a modern car sales and marketplace platform spanning Sales, Rental, and Marketplace modules with 500+ active listings, real-time availability, and dynamic filtering.
- Built responsive, mobile-first UIs using HTML5, CSS3, Bootstrap, JavaScript, jQuery, and AJAX aligned with modern component architecture.
- Engineered a secure Laravel backend with OOP PHP, RESTful APIs, advanced routing, and Sanctum token-based authentication.
- Designed an optimized MySQL schema with proper indexing strategies to handle high-volume concurrent queries with full data integrity.
- Integrated Stripe payments, multilingual support (Arabic, English, Chinese), and third-party APIs for seamless workflows.
- Implemented end-to-end booking flows, seller dashboards, admin approval panels, and automated notification systems.

Tech Stack: *Laravel, PHP, MySQL, React.js, JavaScript, Bootstrap, REST APIs, Stripe, AJAX*

Backend & Full Stack Developer

July 2022 – May 2025

EBRIDGE Technology (Pvt) Ltd — Islamabad, Pakistan

- Delivered high-performance backend systems using Laravel and Symfony with MySQL and REST APIs across 20+ client projects.
- Built scalable eCommerce platforms with Stripe and Laravel Cashier; implemented OAuth social logins (Google, Facebook, LinkedIn, GitHub).
- Developed dynamic, SEO-optimized frontends with React.js, Next.js, and Vue.js using Material UI and Tailwind CSS.
- Built and published 6+ commercial PrestaShop modules for Addify, including Google Places autocomplete, Google Sheets sync, geolocation redirect, appointment scheduling, and PDF catalog generation, integrating Google Sheets, Google Address Autocomplete, and other third-party APIs into client workflows.
- Managed FTP, cPanel, and staging environments, and resolved critical production incidents in real time.

Tech Stack: *Laravel, Symfony, React.js, Next.js, Vue.js, MySQL, Stripe, Sanctum, Tailwind CSS*

Customer Support Engineer

February 2024 – February 2025

EBRIDGE Technology (Pvt) Ltd — Islamabad, Pakistan

- Provided technical support in parallel with development duties, handling client communication and quickly diagnosing and resolving website issues via FTP, cPanel, and staging environments.
- Delivered fast, effective fixes that minimized downtime and maintained high client satisfaction across 20+ active accounts.

Full Stack Developer

December 2020 – May 2022

Adbook Digital Company — Timergara, KPK, Pakistan

- Delivered end-to-end web solutions using HTML, CSS, JavaScript, Bootstrap, jQuery, PHP, and MySQL for local clients.
- Built a Zakat Management System, Blood Donation Platform, and Rental Management Application — managing all project phases from discovery to deployment.
- Handled complete project lifecycles including client discovery, iterative delivery, QA, and post-launch support.

Tech Stack: *HTML, CSS, JavaScript, Bootstrap, jQuery, AJAX, JSON, PHP, OOP, MySQL*

KEY PROJECTS

Saudi Autos — Trilingual Automotive Marketplace

Full automotive platform with Sales, Rental, and Marketplace modules. Trilingual (Arabic/English/Chinese), Stripe payments, role-based seller dashboards, 500+ live listings, PDF invoicing, and an admin approval system.

Tech Stack: *Laravel, PHP, MySQL, Stripe, Bootstrap, AJAX, REST API, HTML, CSS, JSON*

CoffeeOS — Enterprise Coffee Shop SaaS

Multi-tenant, white-label SaaS platform for coffee shop chains with bilingual support (EN/AR), Stripe billing, WhatsApp ordering, an analytics dashboard, and POS integration built for scale.

Tech Stack: *Next.js 15, TypeScript, Tailwind CSS, PostgreSQL, Prisma, Stripe, NextAuth, Framer Motion*

Nexora — Social Media AI Agent SaaS

AI-powered SaaS for automated social media content generation, scheduling, and analytics with subscription billing and multi-user dashboards.

Tech Stack: *React.js, Next.js, OpenAI API, Firebase*

Lumara Hotels & Resorts (Booking Platform)

Luxury hotel booking system with real-time reservations, bilingual UI (EN/AR), an admin dashboard, media management, automated email alerts, and containerized deployment.

Tech Stack: *Next.js 14, TypeScript, PostgreSQL, Docker, Redis*

AI-Tamr — Premium Dates Export Platform

B2B export management platform for the Saudi dates trading industry with bilingual support (EN/AR), a CRM-style admin panel, media handling, and CSV/PDF reporting.

Tech Stack: *React 18, Firebase, Vite 5, Cloudinary*

Amr — Venue & Event Booking Platform

Multi-category booking system for weddings, corporate events, and venues with real-time availability scheduling, integrated payments, and admin management.

Tech Stack: *Laravel, MySQL, JavaScript, HTML, CSS, AJAX, JSON*

Bookify — Universal Appointment System

Cross-industry appointment booking platform with real-time availability, calendar management, Stripe payments, and multi-business support.

Tech Stack: *Laravel, React.js, Next.js, MySQL, Stripe*

ProposalCraft — SaaS Platform

SaaS platform for freelancers and agencies to create, manage, and send professional proposals, complete with a client dashboard and PDF export.

Tech Stack: *Laravel 11, PHP 8.2, MySQL, DomPDF, Blade, HTML, CSS, Javascript AJAX, JSON*

NEXUS UI — Enterprise Admin Dashboard

Premium SaaS/CRM dashboard template with AI-driven insights, interactive charts, role-based authentication, and dark/light modes — built dependency-free with vanilla JavaScript.

Tech Stack: *HTML5, CSS3, JavaScript (ES6+), ApexCharts, Glassmorphism UI*

Addify PrestaShop Modules (15+ Published Commercial Modules)

Built and shipped commercial PrestaShop modules for Addify, including Google Places address autocomplete, a Google Sheets connector, IP/geolocation redirect, an availability scheduler with Google Calendar sync, a request-a-quote system, and an advanced PDF catalog generator — used by live PrestaShop stores worldwide.

Tech Stack: *PHP, Symfony, MySQL, Google APIs, PrestaShop, OOP, MVC, REST APIs, Javascript, JQuery*
